

#25773

01/17 DE- EN

Verwendung

Die Schutzscheibe schirmt den Fahrer von den rotierenden Laufrädern ab. Somit kann die Bremsscheibe während der Fahrt nicht erreicht werden.

Intended use

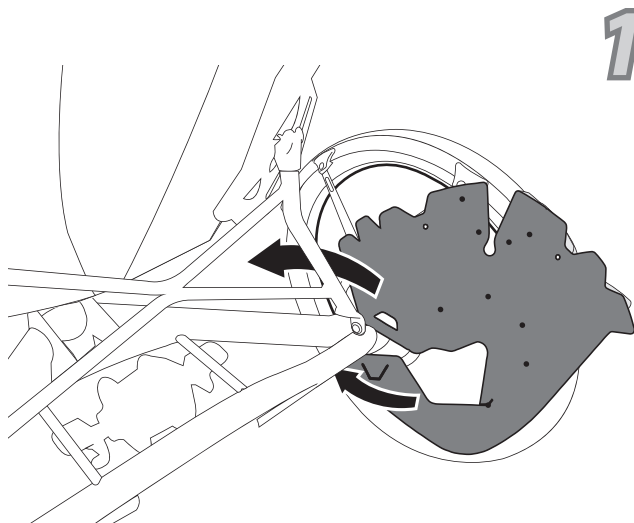

The safety cover protects the rider from the hazards associated with rotating parts. When the cover is installed, it is impossible for the rider to come in contact with the wheel and brake disc.

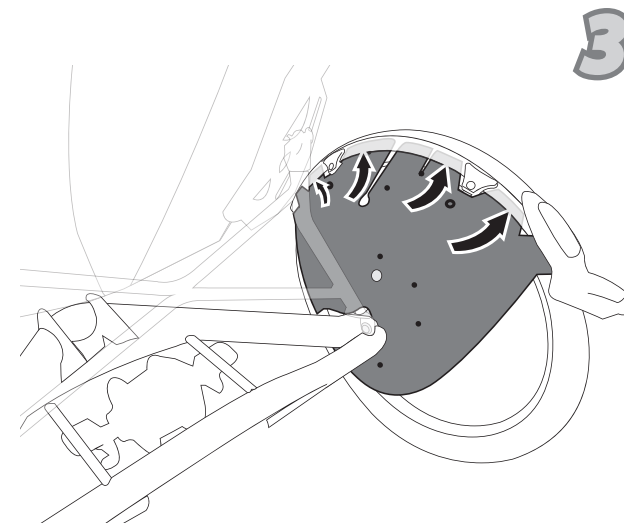

Achtung! Caution!

Die Schutzabdeckung für Disk und Laufrad wurde für die Verwendung an Hase Bikes entwickelt. Bei Verwendungen an anderen Fahrzeugen übernehmen wir keine Haftung.

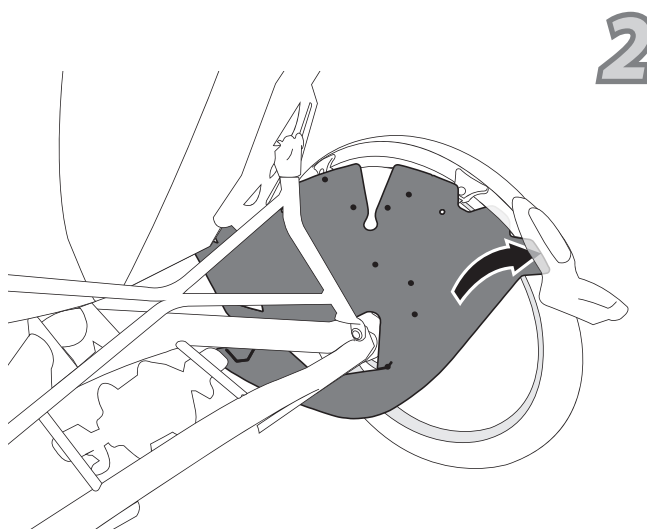

This cover was developed exclusively for Hase Bikes vehicles. Brake discs and wheels are dangerous rotating parts. Never touch the brake discs or wheels when the trike is in motion.
